

Art & Design (Art, Craft & Design)

Why you should follow this course

This is a broad-based course exploring practical and critical/contextual work through a range of 2D and/or 3D processes and media associated with two or more of the titles- Fine art, Graphic communication, Textile design, Three-dimensional design, Photography.

Art, Craft and Design is a wide ranging course covering printmaking, sculpture, painting, photography, mixed media, drawing and art history. Students are encouraged to develop their ideas using a range of experimental techniques and media, extending their creative individuality. The course enables students to develop their skills in decision making, the ability to follow tasks through from conception to completion and to develop their potential when working independently.

Students are encouraged to develop their ideas in an original and exciting manner, providing them with the opportunity to gain new skills and develop existing ones. We encourage students to visit galleries locally and in further afield. This enables students to experience a rich variety of historical and contemporary work, which will subsequently inform their own creativity.

You can opt to do the AS in year 1 with the option to continue to the full A level in year 2, or complete the full A level over 2 years.
